DATE: January 2021
RE: **Active Scholar Award**

The Arkansas Activities Association Executive Committee wishes to recognize graduating seniors who have participated in interscholastic activities while maintaining their high academic standing. We know you will agree that these deserving students should be recognized for their accomplishments.

The students who meet the established criteria will receive an **Active Scholar Award** certificate from the AAA accompanied by letters of recognition from Governor Asa Hutchinson and the Director of the Arkansas Department of Education, Johnny Key. The order form for these awards must be returned to the AAA office by May 1, 2021.

Criteria for receiving the AAA **Active Scholar Award** are:

- Must be in the **top ten percent of the senior class** based on a cumulative GPA through seven semesters in grades nine through twelve.
- Must have participated in one or more interscholastic activities in at least two years (grades 9-12) which must include the senior year.

DO NOT SEND a list of student names. You will add the names to the certificates when they are received.

Thank you for making it possible for us to recognize your outstanding active students.

Please return the order form below by May 1, 2021.
